Portfolio: https://mr-kasper.github.io/My_Portfolio
LinkedIn: /in/rachid-saadi-a704482b3
Phone: +212 713 424099

Frontend developer with expertise in React, HTML, CSS, JavaScript, and TypeScript. Experienced in building responsive, high-performance web applications using modern frameworks like Next.js and Tailwind CSS. Proven ability to transform complex designs into efficient and scalable web solutions, delivering optimized user experiences.

EDUCATION

University diploma of technology in computer engineering
2022 - 2024

High School of Technology Agadir, Morocco

Baccalaureate in mathematics science
2019 - 2022

Aljoulane High School Biougra, Morocco

PROFESSIONAL EXPERIENCES

Frontend Developer | End of Studies Internship | Driven School
April 2024 - June 2024

Developed a web app that increased attendance tracking efficiency by 40%:
- Support for the requirements specification.
- Drafting of the detailed functional design document.
- Development realization.
- Perform integration and end-to-end testing.

React | Redux | Tailwind CSS | Laravel | MySQL | Git

Odoo Developer | Internship | LeanSoft
July 2023 - August 2023

- Participate in the design and development of a red fruit farm management system with Odoo.
- Monitor internal projects on a daily basis.
- Participating in code reviews and providing constructive feedback to other developers.

SKILLS AND LANGUAGES

Programming Languages
HTML, CSS, JavaScript, TypeScript

Frontend Development
React, Next.js, Tailwind CSS, Bootstrap, Sass, Cypress

Others
Git, GitHub CI/CD

Technical proficiencies
Frontend Development, Responsive Web Design, Create & Apply Ideas & Solutions, Web Programming Skills

Languages
Arabic (Maternal), English (Fluent), French (Fluent)

PROJECTS

Booking App - Next.js, Tailwind CSS, Appwrite
Developed a room booking platform, enabling real-time reservations and booking management; improved user engagement by 35% and reduced booking errors by 20% through optimized workflows and intuitive UI design.

Advanced Notes Taking - React, TS, Bootstrap
Engineered a markdown-enabled note management platform that streamlined content organization; resulted in a 40% increase in user retention rates and improved overall satisfaction scores based on user feedback surveys.

Image Gallery - React, Tailwind CSS
Engineered an innovative image search platform that enabled swift retrieval by title or name; improved functionality led to a 30% increase in user efficiency and enhanced satisfaction based on targeted feedback.

Food Recipe - React, Tailwind CSS
Created a food recipe search and discovery platform that increased daily active users by 25% and boosted recipe search speed by 40% through optimized search algorithms and responsive design.

Search App - HTML, JavaScript, Sass
Developed a search engine replica integrated with the Wikipedia API for real-time data retrieval; achieved a 50% reduction in search response time, leading to a smoother user experience.

Images Compression - JS, CSS
Engineered an image compression tool akin to TinyPNG, reducing image sizes by up to 70% without quality loss; enhanced website load speeds by 50% on average across compressed images.
